

TBS-3/8

COMPACT AND PORTABLE ROTARY BAND SEALER

- USDA approved Economy Table Model Rotary Band sealing system.
- Designed to seal materials: Polyethylene, Polypropylene, Laminates, Nylon, Tyvek, PET/ Polyester and Foil.
- Variable speeds up to 540 inches per minute (45 fpm) with ultra-quiet gear motor.
- Front Heater On/Off switch for sealing Tyvek. Heat is generated from Front and Rear Heaters as required for other materials.
- Quality seals of 3/8" wide are achieved through the use of special heavy duty wear-resistant laminated Teflon bands. Seals 1/8" and 1/4" wide are also available.
- Digital Temperature Control with PID Autotune maintains consistent heat and assures quality hermetic seals.
- Unit is designed with 5" long heating zone and 5" long cooling zone for greater flexibility in product sealing of difficult materials with temperatures up to 450 degrees +/- 2 degrees Fahrenheit.
- Chrome plated sealing assemblies followed by Nickel plated Cooling Section along with Anodized aluminum Chassis Sealing Assembly's construction of stainless steel shafting throughout reduces wear assuring longevity of use.

- Swivel Base designed for sealing from vertical to 45-degree position.
- Optional Product Carry Shelf for ease of entry.

- Model VBS-3/8 is available with 4' high adjustable Floor Stand, may complement your existing equipment by positioning the Sealing System over it.
- Optional Embossing Coder for product marking is available upon request.
- Electrical 110 VAC 10 amps/ 60 Cycle.
- No compressed air required.
